Sixty-fifth meeting of
NUMISMATICS INTERNATIONAL
Wednesday, November 19, 1969
Northwest National Bank - Community Room
Walnut Hill Shopping Village
DALLAS, TEXAS, U.S.A.

PROGRAM: Fourth Annual Exhibit Night and Election
of Officers for 1970.

BY-LAWS REPORT: The new By-Laws, which were submitted
at the regular meeting in September, were unanimously
approved by a vote of the members attending the
October meeting. Copies of the new By-Laws will be
available soon and will be mailed to each member.

* * * * *

1970 DUES: As outlined in the October Bulletin, the
Board of Governors has recommended that the 1970 dues
be \$3.00, which will include seamail delivery to those
members overseas, except that those members who have
an APO or FPO address shall receive airmail delivery.
(See the October Bulletin for schedule of costs for
overseas airmail delivery.)

In accordance with the By-Laws (As amended October
1969), a vote of ratification is necessary by the
members present at the November meeting. Any objections
to the proposed dues should be made in writing and will
be read prior to the vote at the November meeting.

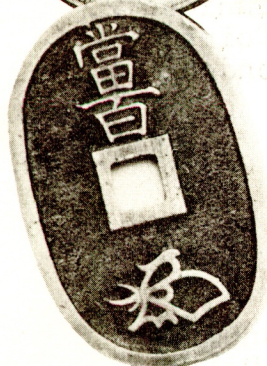

* * * * *

REPORT OF NOMINATING COMMITTEE FOR 1970 OFFICERS: The

CHRISTMAS DINNER MEETING: The Christmas Dinner Meeting and Installation of 1970 Officers will be at the El Fenix Mexican Restaurant, 1601 McKinney (Downtown), Dallas, Texas, at 7:30 P.M. December 17th.

Guest speaker will be NI Member HOLLAND WALLACE of Racine, Wisconsin. Holland is Associate Editor of Whitman's, who publish the popular "Modern World Coins", "Current Coins of the World" and many other numismatic references. He also authored his own excellent work, "Central American Coinage Since 1821", which is one of the standard references for coinage of this area of the world.

Cost of the dinner will be \$5.00 per person, including favors and strolling musicians furnishing entertainment in the Latin manner. Beer and set-ups will be available, at each members additional expense.

All members planning to attend the Dinner Meeting should confirm their reservation with Don Rubarts (Phone 278-3276) and mail their check to the regular club address by December 1st. Late reservations will also be accepted. Payment can be made also at the November meeting to Don Rubarts, Ed Slade or Bob Ward.

PAST MEETINGS IN BRIEF: At the August meeting of NI, JOHN HORN spoke on "Trade Dollars and Travels in the Orient". He explained how, in an effort to interest his son in coin collecting, he became a confirmed numismatist himself. Later, according to Mr. Horn, while travelling in the Orient, he found 19 trade dollars in a Hong Kong shop. He bought them, gradually cleaned them, finally, and unfortunately sold some; but, he smiled, most of them form the nucleus of his extensive collection of U.S. Trade Dollars. Chop-marking coins, he continued, probably originated in Canton, China and was something of a guarantee of genuineness. BOB TOMLINSON, presiding in the absence of President ED SLADE, made a report on the growth of the NI Library, explaining how the books have been donated by members and how they can be signed out for a month by any members interested. The following visitors were introduced: F. H. Wackwitz, Marjorie Bryant, John Earhart and John Kilpatrick.

In October, BILL BENSON took us on a most intriguing trip through the medium of his collection of paper money -- from China of the thirteenth century; Egypt, with its note depicting beautiful Nefer-titi, wife of a Pharaoh; Persia, keeping alive the image of Alexander the Great; Greece, truly expressing the Greek ideal - "beauty, absolute, simple and everlasting...."; Russia, an exciting and exotic wood block of the Russian Revolution; Australia, with its ornately engraved notes of which the 5 and 10 are best examples of contemporary art in existence; Spain, from whence some of the most beautiful notes come with the reproductions of famous paintings on the obverse; Morocco, whose notes express the Moroccans' absolute defiance of Spanish culture; the Netherlands, their multi-colored notes so extremely well-done and the Bahamas, with their money-making and many-colored paper notes so popular with the tourists. Bill also outlined plans for the club exhibit night at the November meeting presenting quite a challenge to members.

THE MALAYSIAN NUMISMATIC SOCIETY, formed in 1968, now has 54 active numismatists. Most of the members live in the Malaysia area and want desperately the opportunity of trading with collectors from other areas. Interested parties who wish to trade or join the Society may write the Secretary -- Mr. Tony Ly Fong Nge, Malaysia Numismatic Society, No. 3 Jalan Taman, P. Jaya, Selanger, West Malaysia. The Society publishes a mimeographed bulletin and auction lists, both of which are sent air mail to all members.

CLUB EMBLEM CONTEST: Judging is just about completed and an announcement of the name of the winner in the Club Emblem Contest will be made at the November meeting. The December Bulletin will present the new emblem in its final form to the membership. As soon as possible, all club official papers will be printed using the new official club emblem.

DON'T FORGET TO ATTEND AND BRING A DISPLAY TO THE MEETING THIS MONTH.

SOME COMMENTS ON BELGIAN COINAGE

by Ray Depover
68 rue E Vandervelde
Roux (Hainaut) Belgium

Belgium is divided into two groups: the Walloons, who speak French, and the Flemings, whose tongue is the so-called Flemish language which is a variation of Dutch. I thought it would be interesting to explain about the multi-lingual inscriptions appearing on Belgian coins in consequence of this division.

In most cases every type has been minted in both languages, but there are some exceptions as at the beginning of the coinage of the Kingdom of Belgium, there were no Flemish specimens. On the other hand, it must be noticed that incidentally both inscriptions appear on the same coin, sometimes with the French legend first and sometimes with the Flemish legend first. For example: "Belgique-Belgie" or "Royaume de Belgique-Koninkrijk België" (French first) and "Belgie-Belgique" (Flemish first). By the way, "Royaume de Belgique" and "Koninkrijk België" translate into English as "Kingdom of Belgium". Most types struck this way exist in both variations but there are a few exceptions, as for instance Y69 which exists only with the French legend first.

I would like to point out that there are two varieties of Y49. The 1935 carries two stars, one under "20" and another under "FR". The 1934 issue has no stars.

For those who are interested in collecting the complete variations, I thought it would be of interest to list the coins as per variation. They can be listed as follows (proofs, etc. not considered):

1) Coins minted in French only:

All Leopold I (listed in Craig) and Y8-9-10-11-19 of Leopold II (see note below under "5)" on Y7).

Note that Y11 does not appear any more in the 7th Edition of Yeoman's "Modern World Coins", probably because it is not actually a coin but a medal as it shows no value. It is sometimes considered as a crown of 5 Francs like Y8. This is an extremely scarce issue minted in three different metals:

6,714 Mintage in Silver .900.

27,841 Mintage in Bronze.

One single specimen in Gold.

2) Coins minted in French/Flemish only (both languages on same coin):

Y38-39-40-49-56. Y56 was struck at the Philadelphia Mint.

3) Coin minted in Flemish/French only (both languages on same coin):

Y41

(Continued next page)

SOME COMMENTS ON BELGIAN COINAGE (Cont'd):4) Coins minted in French/Flemish and in Flemish/French:

Y42-43-44-45-46-50-51-52-53-54

5) Coins minted separately in French and in Flemish:

All others, except Y65 minted only with a Latin legend.

Note: Y7 was struck in Flemish only in 1887. Being an extremely low minting, this coin is very rare. All other issues of Y7 were struck on in the French variety.

In addition to coinage, the following official commemorative medals should be mentioned:

Wedding of Duke of Brabant (the future King Leopold II) with Maria-Henrietta, Archduchess of Austria - August 21-22, 1853.

37mm	Gold .900	French Legend
37mm	Silver .900	" "
32mm	Copper	" "

25th Anniversary of the Inauguration of the King (1856).

27mm	Gold .900	French Legend
27mm	Silver .900	French & Flemish Legend
28mm	Copper or Bronze	French & Flemish Legend

Millenary of the Brussels Mints: To commemorate the Millenary of the Brussels Mints, two medals were struck: one in Gold (21mm .900) and one in Silver (27mm .835). The Brussels Mints have been striking coins for approximately 1,000 years and the above medals depict the obverse of one of the first coins known. Since Belgium gained its independence in 1830, only the Brussels Mint has been striking coins and therefore no Mint Mark appears on the coins.

I would like to devote the latter part of this article to silver coins, and more particularly to their contents in silver. It is easy to give a general idea on this subject.

All coins of Leopold I and Y8 of Leopold II are .900 silver. The remainder contain .835 silver with three exceptions: Y36, Y43 and Y49 which are of .680 silver.

Needles to say, I am at your disposal if you need any more information on Belgian coinage. I will answer your questions to the best of my ability.

I would also like to take this opportunity to say that I have many Belgian coins for trading, plus other current coins of the world. My collecting interest is mainly world coins from 1940 to date (plus a few older ones from some other countries), with the exception of the coins of the USA and Canada, these collections being complete with the exception of a few older USA. Your list of trading material as well as your want list is welcome.
